HONORABLE PAUL G. HOFFMAN

Administrator,
Economic Co-operation Administration

*“If you are going
to maintain
private enterprise . . .*

“If you are going to maintain private enterprise in the United States, you must have private savings. There is no substitute for them. If America ever loses the habit of thrift, and stops saving, the funds for private enterprise will cease.”

More than 8,000,000 Americans . . . in 21,000 companies are enjoying the habit of thrift. By systematic purchase of U. S. Savings Bonds through the Payroll Savings Plan they are building their independence . . . creating a fund for the education of their children . . . putting aside money for a home or working towards other objectives that contribute to our national economy and the preservation of private enterprise.

Employees are not the only beneficiaries of the Payroll Savings Plan. As employee participation in the plan increases, absenteeism and turnover go down and production goes up, because bond buyers are steadier, more careful workers. That is not theory—it is the ex-

perience of companies that get behind the Payroll Savings Plan.

There's a national benefit, too. Think of the backlog of purchasing power being built up, month after month, by more than 8,000,000 workers!

If you are not affording your employees an opportunity to build a future for themselves, their company and their country through participation in the Payroll Savings Plan, get in touch with your State Director, U. S. Treasury Department, Savings Bond Division. He will be glad to provide application cards, promotional material and as much personal help as you need to install and build up your Payroll Savings Plan.

The U. S. Government does not pay for this advertising. The Treasury Department thanks, for their patriotic donation, the G. M. Basford Company and

THE COMMERCIAL AND FINANCIAL CHRONICLE
